Hi Burt. I don't remember whether you were there but back at the May 8 FS meeting we discussed updating the Mn PRG for RAO 8 and Kristine told us to go ahead. So now the work's done and we want to get approval to use the hardness-based Mn "criterion" to set the PRG. It came up on Thursday's LWG-EPA informal FS meeting and now that the work's done we'll want to know whether EPA has questions or concerns, and get approval to go ahead with hardness-based PRGs based on the hardness-based chronic "criterion" that we've derived following EPA's AWQC methodology using all the now available data. I can talk this afternoon. John

John,

Got the Mn memo, both our email and phones are up this morning. Our mail stop in our address may change, but otherwise no changes to my email, mailing address and phone due to our office moving. Just went from 9th to 14th floor. FYI, next time you're over here, the check in is now on the first floor, not 12th floor. The EPA library is also down on 1st floor now, easier for the public to access.

Probably won't get a chance to look at the Mn memo until this afternoon earliest between unpacking and a couple of scheduled conference calls. Is there a schedule on this you're aware of?

Best regards,

Burt Shephard
